Comprehensive insurance & roadside assistance. Mileage charges run from mile 1, no included miles.

Hirer is responsible for mileage charge as shown, and also for damages up to the insurance excess.

Excess is taken on credit or debit card (or cash), and credited at the end of the hire period subject to any damages and to the appropriate mileage charge. In the event of high damage costs the mileage charge will have to be paid on top of the excess charge which will be applied to the damage.

Roadside assistance is provided by the RAC. ALL requests for assistance should go through Cupar Motorcycles by default. Out of normal business hours the hirer may directly request the RAC to recover a bike to a place of safety or a destination up to 50 miles away. For the avoidance of doubt, where longer than 50 mile recoveries are demanded by the hirer directly contacting the RAC, the expenses incurred will be payable by the hirer @ £1.00 per mile. The maximum included recovery to base when **arranged by us** is 250 miles, any additional miles will be for the hirer's account @ £1.00 per mile.

Hire is restricted to mainland Britain and most West Coast Islands BUT specifically excludes Shetland, Orkney, Ireland or anywhere in Europe. Recovery costs to the mainland from any island are explicitly for the hirer's account. We can accommodate hires to the Isle of Man with an additional £800 excess to allow for additional recovery expenses only. The RAC recovery service, when on the Isle of Man is restricted to the Isle of Man. Return of unroadworthy bikes to base from the Isle of Man are for the hirer's account.

- Minimum 12 months licence validity for all hirers aged 25 to 75 inclusive with UK licences
